Differentiation

Black Box is your trusted partner in retail digital transformation creating intelligent retail spaces to provide an in-store customer experience that improve sales and lower costs. We integrate broad solutions from industry-leading partners to personalise shopping, enable mobility and wayfinding, and secure flexible point-of-sale.

Speeding deployment of new solutions

Our deployment strategy can be measured in stores per day, not stores per year. Nationwide and global rollouts enable a uniform customer experience quickly, across all locations.

Enabling retailers to consume solutions the way they want to consume them

Through our Solutions Alignment Framework, we drive alignment between real business objectives and any deployed solution - delivering as-a-service with agility, accountability, and transparency

Black Box is your trusted partner in **RETAIL** digital transformation.
