

Securing Organizations at the Speed of Innovation

Comprehensive, full-lifecycle cybersecurity services for resilient digital transformation

Black Box helps organizations strengthen cyber resilience, protect critical operations, and accelerate secure digital transformation through consulting, system integration, managed services, and 24x7 security operations, supported by global security operations capabilities. With an outcome-based approach tailored to each client's priorities, maturity, regulatory needs, and technology landscape, Black Box improves visibility, reduces risk, and supports continuous security improvement.

Our Cybersecurity Portfolio

Why Black Box

Black Box helps organizations move beyond compliance to proactive cyber resilience through vulnerability assessment, penetration testing, threat intelligence, and prioritized remediation. With expertise across applications, infrastructure, cloud, websites, IoT, OT, and embedded environments, and alignment with cybersecurity, privacy and critical information infrastructure expectations, Black Box helps clients strengthen defenses and reduce exposure to evolving threats.

Built Around Your Cybersecurity Priorities

Infrastructure Security

Network security, endpoint detection & response, SASE, Zero Trust, mobile security, OT/IoT security, AI-driven security, and advisory & engineering services.

Managed Extended Detection and Response

24x7 XDR monitoring, incident response, threat hunting, DFIR, threat intelligence, AI-driven security, and advisory & tuning services.

Threat and Vulnerability Management

Vulnerability management, secure SDLC, penetration testing, remediation consulting, red/purple teaming, advisory services, and AI-driven security.

Identity and Access Management

IGA, PAM, access management, MFA, biometrics, identity transformation, advisory & engineering services, and AI-driven security.

Cyber Governance, Compliance and Risk Management

Maturity assessments, vCISO advisory, risk reviews, compliance alignment, tabletop exercises, cyber awareness, and governance consulting.

Our Value Proposition

Multi-tower and
Multi-platform
Expertise

Tailor-made
Solutions

Plug & Play-
Scalable and
Efficient Offerings

Proactive Security
Services

Cost-Effective
Solution Offering

Cyber Resilience-
driven Business
Continuity

Key Service Differentiators

Innovation-Driven

- Rapid adaptation to emerging threats
- Automation first approach to security operations
- Security that enables digital transformation
- Real-time threat visibility and response

Proactive Resilience

- Continuous threat monitoring
- Risk-aware security posture
- Predictive threat mitigation
- Built-in incident preparedness
- Client curated threat intelligence

Proven Trust

- Decades of security leadership
- Globally recognized certifications
- Transparent, measurable outcomes
- Trusted by critical industries worldwide
- Mastering complex compliance standards

Tailored Expertise

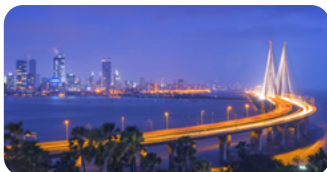

- Customized security programs
- Industry-specific knowledge
- Flexible global delivery model
- Client-aligned solutions
- Security solutions built for critical infrastructure

Your Partner for Cyber Resilience

Black Box helps organizations build stronger defences, reduce cyber risk, and respond with confidence. It takes the right technology, the right expertise, and a team that stays invested in the outcome.

Case Studies

Local Governing Body

Improving Citywide IT Security Visibility Across Users, Devices, and Applications.
