BLACK BOX

Global Semiconductor Solutions
Where People, Ideas, & Technology Converge

Since 1996, Black Box has been a trusted partner to the semiconductor industry, delivering comprehensive IT Managed Services to support chip manufacturers' complex needs. Operating across multiple locations, we provide 24x7 on-site support, strategic program management, and global deployment coordination. Our services include server refresh and maintenance, LAN/WAN support, network equipment installation, and fiber and copper cabling, all governed by time-driven Service Level Agreements. With hundreds of dedicated experts across major U.S. campuses, we help semiconductor companies streamline operations within lab, office, and data center environments.

Think Global. Act Local.

Expect the best of both worlds: strategic global expertise, executed locally. When you work with Black Box, you can confidently anticipate a seamless level of service in 35+ countries, worldwide. Work with a partner that follows global best practices and processes, but has local experts well-versed in regional standards and regulations.

Global Support Services

Managed Services

Black Box provides managed IT services, ensuring smooth operations, innovation, and team focus on crucial objectives with flexible, tech-savvy, cost-effective solutions.

- Staff Augmentation
- Service Desk
- Support Services
- X-as-a-Service

Professional Services

Professional services connect you with the right technology, develop flexible, advanced networks, and provide expert oversight, flawless execution, and ongoing management.

- Consulting & Design
- Field & Dispatch Services
- Project & Deployment
- Application Development & Integration

Global Solution Integration

Connectivity Infrastructure

Fiber Connectivity

Reshape your digital word with fiber connectivity solutions that revolutionize communication, offering high-speed data transmission via optical fibers ensuring reliability, speed, and bandwidth capacity.
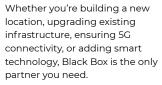

IoT, Physical Security, & Surveillance

With our comprehensive IoT, physical security, and surveillance solutions, we ensure the safety, efficiency, and reliability of modern enterprises globally.

Passive Infrastructure & Structured Cabling

Whether you're building a new location, upgrading existing infrastructure, ensuring 5G connectivity, or adding smart technology, Black Box is the only partner you need.

Audio-Visual Integration

Smart AV solutions that harmonize in-room and remote collaboration experiences enabling everyone to discuss, present, and share ideas as one, without barriers.

Enterprise Networking

Local Area Networks

Everything imaginable can be "connected", from PCs, printers, and phones to smart AV equipment, lighting, office equipment, security locks, and cameras to an intelligent Local Area Network (LAN).

Wide Area Networks

WAN architecture that enables digital and cloud transformation, ensuring a predictable user experience for applications, and providing a seamless multi-cloud architecture, while integrating robust best-in-class security.

Cloud Networks

Cloud network solutions enable remote access to resources and services over the Internet, providing scalability, flexibility, and cost-effectiveness for businesses and individuals.

Wireless & Private LTE Networks

With wireless and Private LTE, coupled with other networks, you can create a strategy that supports everything wireless — for your network now and well into the future.

Data Center

Hyperscale Data Center

We offer top-tier expertise and infrastructure for hyperscale data centers globally, ensuring tailored support from trained professionals across diverse locations.

Colocation

Delivering secure, reliable colocation data center solutions that ensure seamless connectivity, scalability, and operational efficiency for your critical infrastructure.

On Premise

Offering comprehensive on-premise solutions that provide secure, scalable, and high-performance infrastructure tailored to your organization's specific needs.

DCoE

Our Data Centers of Excellence are designed to meet the evolving needs of data centers, offering a comprehensive suite of services tailored to optimize performance, efficiency, reliability, and BICSI training.

ABOUT BLACK BOX

Trust, innovation, and experience drive Black Box's journey as the Premier Global Digital Infrastructure Solution Integrator.

Black Box is a trusted IT solutions provider delivering cutting-edge technology solutions & products and world-class consulting services to businesses around the globe. The breadth of our global reach, continuous innovation, and depth of our expertise accelerate customer success by bringing people, ideas, and technology together to solve real-world business problems.
