

AGC Networks Ltd.

INVESTOR PRESENTATION

August 2021

Think **Global.** Act **Local.**

SAFE HARBOUR

This presentation and the accompanying slides (the “Presentation”), which have been prepared by AGC Networks Ltd (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward-looking statements concerning the Company’s future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward-looking statements become materially incorrect in future or update any forward-looking statements made from time to time by or on behalf of the Company.

Q4 deal wins with leading global clients will Strengthen the relationships and help accelerate growth

AGC Black Box strengthens presence in Middle East

Acquisition of
majority stake in
Z Services HQ DMCC

Overview

Z Services HQ is a Cyber security cloud services provider, offering Secure Access Service Edge (SASE), Unified Cloud security, Email Cloud Security / Archiving, Cloud Access Security Broker (CASB), Secure Public Wi-Fi Cloud Services, Cyber Security Awareness Cloud Services, End point detection and response cloud services, combined with service implementation and digital transformation professional services

Industry

Operates in Cloud, Cyber Security and Technology Solutions/Service Industry

Rationale for Acquisition

The acquisition will help to strengthen AGC Black Box's presence in the Middle East region and add cloud Cyber security services capabilities to offer a wide range of services to customers. This also gives an opportunity to cross sell between current customers of AGC Black Box and Z Services HQ

Consideration

Pursuant to the Share Sale agreement, Black Box shall acquire 86% of the legal and beneficial interest in the Target Company for a Cash Consideration of an amount of ~US\$ 3.44 million

DISCLOSURE OF FINANCIAL RESTATEMENT

A

Warrants

- During the financial year 2018-19, BBX, step-down subsidiary of Holding Company, had entered into a credit agreement with Pathlight Capital Fund LLP (the 'lender') to avail credit facility amounting to Rs. 692.57 Crores (USD 97.50 Million) for BBC. Further, as an inducement and towards partial consideration for entering into the credit agreement, warrants were issued to the lender, which had a right to purchase common stock of BBC, having par value of USD 0.01 per share. BBC had not accounted for these warrants in the relevant period and accordingly accounting impact was not considered in the consolidated financial results of that period
- The Holding Company was required to account financial liability at fair value of warrants with corresponding debit to debt issuance cost. These warrants should be subsequently measured at fair value through profit or loss at each reporting date in accordance with Ind AS 109, 'Financial Instruments'. Further, debt issuance cost should be amortised over the period of loan

B

Unamortised cost of maintenance contracts

- During the financial year 2020-21, BBX has identified excess unamortized cost for maintenance contracts in one subsidiary which is pertaining to financial year 2019-20. The error pertaining to the past period has now been recorded by restating the respective reporting period

C

Sale and leaseback

- During the financial year 2019-20, BBC executed an arrangement of sale and leaseback with Pitts Properties Inc. ('PPI') where BBC ('seller / lessee') agreed to sell and lease back its land and building with PPI ('purchaser/ buyer/ lessor'). The transaction was recorded in the books in the relevant period. PPI is an unrelated party.
- During the same financial year 2019-20, AGC USA had provided financial guarantee to the lender of PPI on behalf of PPI. BBC had also provided springing guarantee to the lender of PPI which became effective on premature repayment by BBC to Pathlight in December 2019. It is constructed that PPI raised the money from its lender against the financial guarantee given by AGC USA apart from the security of land and building to pay BBC towards sales consideration. Accordingly, the initial sale and lease back transaction became invalid in line with Ind AS 115, 'Revenue from Contracts with Customers' and Ind AS 116, 'Leases'. This has resulted into unwinding of sale and lease back transaction on the initial date of recognition. Land and building are re-recognized in the books and depreciation is charged as if the sale never took place. Financial liability is recognized in the books for the amount equivalent to the consideration already received from PPI in respective periods.
- Further, AGC USA and BBC had not accounted for the financial guarantee in accordance with Ind AS 109, 'Financial Instruments' at the time of issuing the guarantee to lenders of PPI. Accordingly, guarantee is recorded at fair value on initial recognition, and fair value is determined by comparing effective interest rate implied by the cash flow analysis with BBC's incremental borrowing rate

Board of Directors has instructed that a Big 6 CA firm be appointed as internal auditors and significant stress be put on internal audits and reporting

IMPROVING FINANCIAL FLEXIBILITY

Promoter Funding

- Promoters infusing equity through warrants: Rs.225 Crores at Rs.675 per Warrant
- Money will be used to meet the growth requirements of the company, reduction in liabilities and general corporate purposes
- Rs.188 Crores received in Q4FY21 as subscription amount

Balance Sheet Strength

- Transformation at Black Box has improved the financial strength
- Promoter funding to help in increasing the net worth further and reduce the liabilities
- Cash & Cash equivalents as on 31st March 2020: Rs.410 Crores

Credit Rating

- CRISIL has assigned BBB-/Stable rating (Investment Grade) to the long-term facilities and A3 for short-term facilities
- Ratings reflect upon healthy business risk profile, driven by the established market position and the improving profitability & cashflows of the company

The Financial Flexibility will help to:

- Improve business offerings and acquire larger customers
- Extend business within existing markets to build scale and size
- Faster growth through inorganic acquisitions

INORGANIC STRATEGY

Think **Global.** Act **Local.**

INORGANIC GROWTH STRATEGY

Identify Businesses that provides expansion through scale and revenues currently operating with sub-optimal margin profile

- ✓ Capability expansion in areas like Cloud, Data center, Cyber Security, IoT
- ✓ Geographic expansion within US, Europe and APAC

Complementary to existing business

- ✓ Scale up existing businesses
- ✓ Acquire new customers
- ✓ Diversify to newer geographic locations
- ✓ Acquire capabilities in newer delivery verticals and solutions

Transform the acquired entities

- ✓ Execute short term synergies
- ✓ Identify and implement mid-term transformation opportunities
- ✓ Exit non-strategic, low margin revenue segments
- ✓ Simplify capital, financial and tax structure

ACQUISITION HISTORY

Company Acquired	Rationale	Strategic Objectives fulfilled
Black Box Corporation	<ul style="list-style-type: none">Expands offerings, scale and Geographic reach to Service Global Enterprise ClientsIncreased AGC's combined revenues by over \$600mn

BLACK BOX TRANSFORMATION SINCE AGC ACQUISITION

Revenue# (in Mn \$) & Gross Margins

Adjusted# EBITDA (in Mn \$) & EBITDA Margins

Rationalized Resources Regionally

- Contributed to improved Gross Profit and EBITDA

Reduced Statutory Costs

- Transition from Public to Private Company implicitly reduces costs

Procurement Costs

- Reduced procurement costs for products services including conversion of Sub-contractor labour to lower cost employees

Insurance Costs

- Significant improvement in Insurance costs including reduction in retentions

Facility Optimization

- Underutilized spaces being negotiated including consolidation of spaces in North America and Europe

Reduced Admin Costs

- Reduced costs on account of improved policies on Outside service costs, travel etc.

Reduced IT and Communication Costs

- Reductions in carrier costs, improved IT systems, overseas help desk, etc.

ERP Consolidation

- Integration of legacy ERP instances into SAP, Salesforce CRM, ServiceNow and others

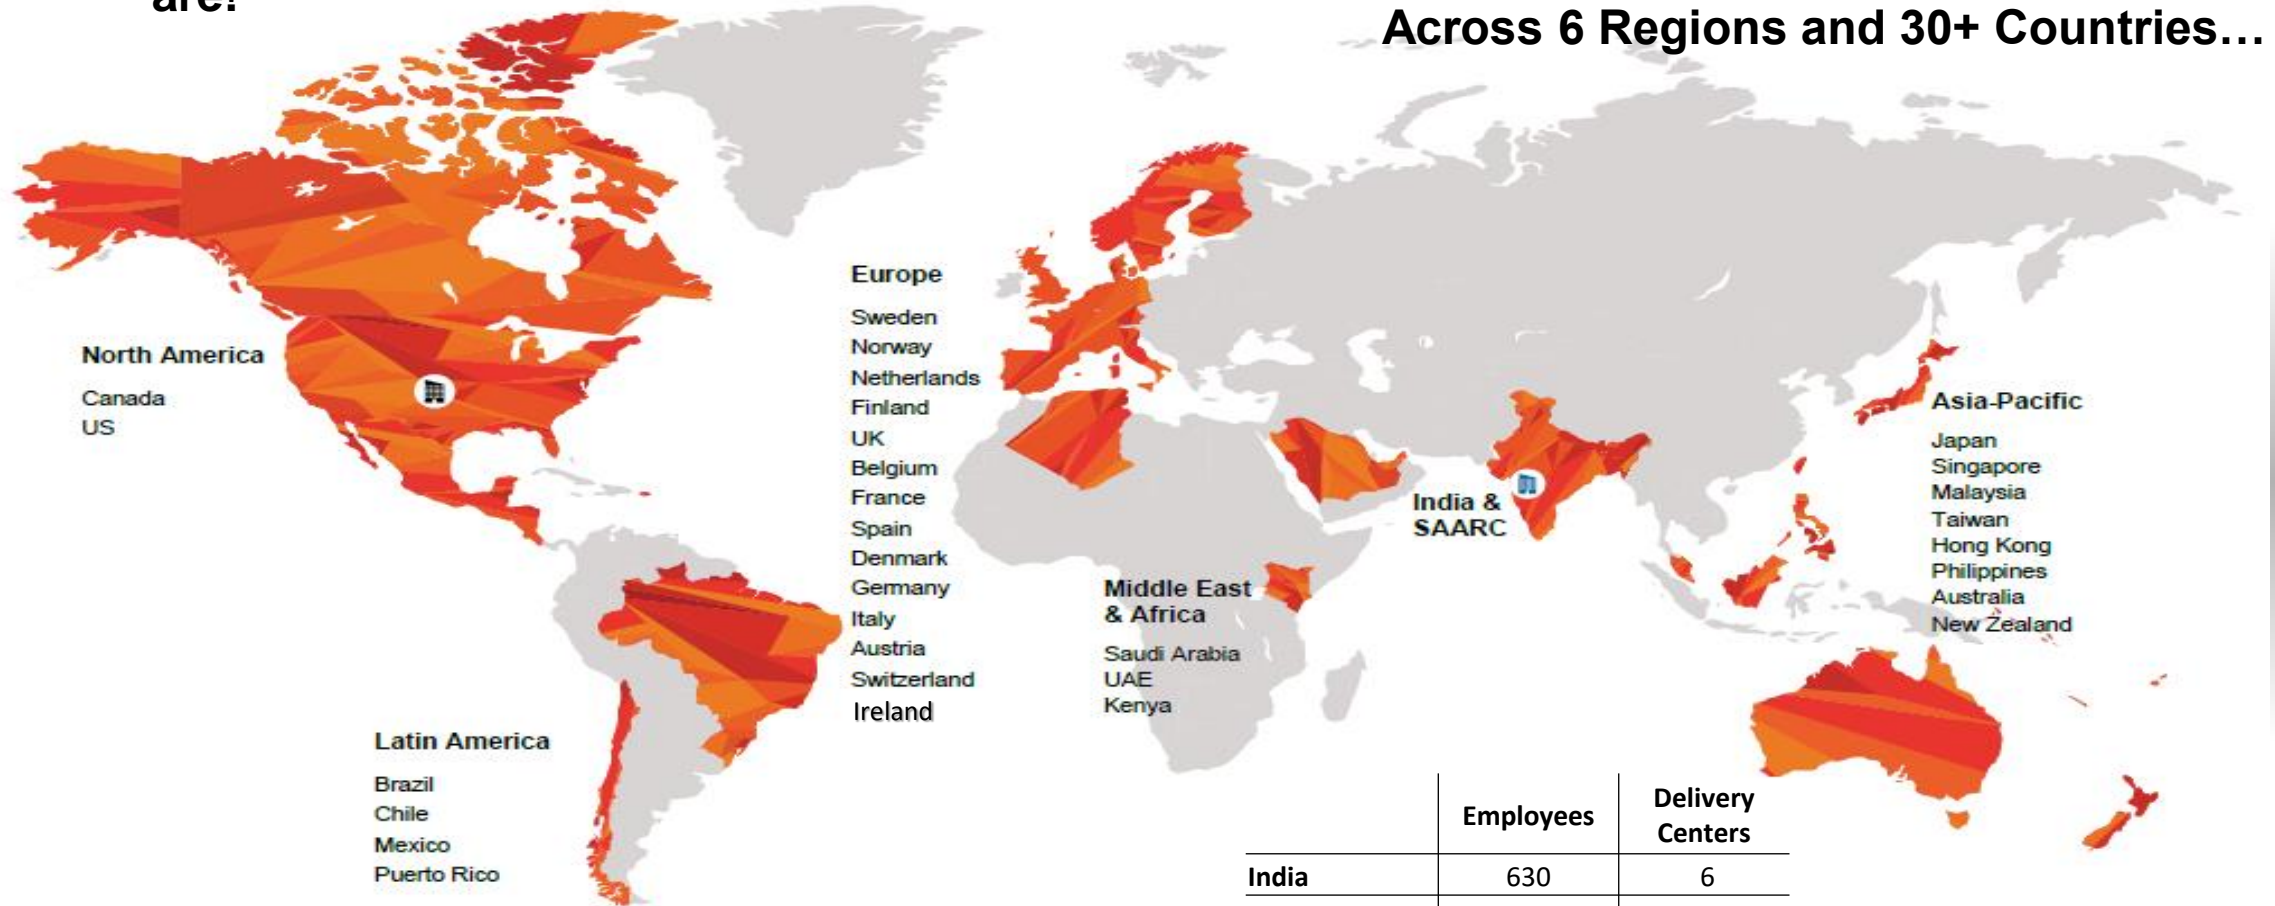

Since AGC's Acquisition in Early 2019, Black Box has Stabilized Revenue and Gross Margins & Adjusted EBITDA has grown over the quarters

THINK GLOBAL – ACT LOCAL

Our strategy is to be 'GLOCAL' by delivering solutions to a client locally wherever they are!

Contact Center Infrastructure Upgrade for an Indian Logistics Company

The Client: Our client is an Indian Logistics Company providing courier delivery services & has a subsidiary cargo airline that operates in South Asian countries

The Challenge

The client decided to upgrade their existing Contact Center technology that was obsolete and move on to a robust optimized architecture so as to ensure maximum uptime

The Solution

AGC explained the merits of a centralized set-up vis-à-vis the existing decentralized set-up & ensured optimization on the design by leveraging their existing infrastructure to the maximum. This involved complete Contact Center consolidation with back-office transformation on soft-phones. AGC's Professional Services were a part of this deal which showcased AGC's capability as a true Solution Integrator

Benefits

A future-ready solution with low Total Cost of Ownership and high uptime

UNIFIED COMMUNICATIONS & COLLABORATION (UCC)

Solution Overview

- + Comprehensive solutions to transform, migrate, and integrate unified communication and collaboration platforms
- + Supports real-time engagement by integrating voice, video, data, messaging, conferencing and mobility technologies

Capabilities

Voice / Unified

Seamless Migration for Voice Technology Service

The Client: This healthcare provider, known worldwide for its excellence in clinical care, was given the highest recognition and national rankings in six specialties ranging from cardiology/heart surgery to neurology/neurosurgery

The Challenge

The client was utilizing PRI, an outdated voice technology service that lacks redundancy and scalability. In addition, the client's current service provider (as well as others) were phasing out legacy PRI services in the region

The Solution

AGC provided an up-to-date voice technology service delivering 2,000 SIP call paths over a redundant MPLS network. The on-site AGC technical team enabled a seamless migration from the old to the new system

Benefits

The new centralized SIP service gave the client flexibility and scalability to add capacity as needed and redundancy with failover between circuits. Best of all, it reduced the client's voice technology service costs by nearly 30%.

Solution Overview

- ✦ Enterprise WiFi, distributed antenna systems (DAS) / small-cell design, deployment and management to enable connectivity in challenging locations from high-rises to buildings with large footprints and below ground features
- ✦ Establish in-building wireless DAS, called InnerWireless 4G

Capabilities

Distributed Antenna Systems

Wireless / LTE

WiFi

Mobile Device Management

Managed Mobile Services

Ubiquitous, 5G-Ready Wireless Coverage

The Client: *This large, university-based healthcare system cares for tens of thousands of patients a year. It is world renowned for its neuroscience, cancer research and treatment capabilities*

The Challenge

The client needs to provide mission-critical cellular coverage in multiple existing and new buildings across its very large campus. The wireless coverage is designed for use by physicians, staff, patients, and visitors

The Solution

AGC has, so far, designed and installed the CommScope IONera Digital Distributed Antenna (DAS) System with more than 500 universal access points (UAPs) in nine buildings across the campus

Benefits

Future-ready and 5G capable, the DAS system provides ubiquitous, multioperator, in-building wireless coverage to support physician/staff communications and patient/visitor satisfaction

MAINTENANCE & MANAGED SERVICES

Solution Overview

- + Value proposition covers the full lifecycle of IT services – from procurement of technology to configuration, design, implementation and management of complex environments
- + Standardized set of offerings for on demand requirements, day 2 support, projects and managed edge services with ability to be bundled or à la carte to address the unique needs of each customer
- + Team of off-site and on-site technicians capable of providing 24x7x365 support from break-fix to complex management, deployment, and integration. Providing 4 hour response time

Capabilities

Asset Lifecycle Management

Desktop & Application Management

Service Desk

Digital Engagement

Enterprise Mobility

IT Staffing

Global 24/7/365 Managed Services

The Client: The client is a widely known multinational company and pioneer in communications and computing technologies. AGC partnered with a global information technology services and consulting company on the project

The Challenge

The client needed a single managed services provider with global reach as well as local expertise to provide uniform, consistent IT services at its many locations spanning North and Latin America

The Solution

The 24x7x365 solution involves more than 150 on-site staffers at 14 of the client's locations. Services include LAN/WAN support, equipment installation and management, plus structured cabling in offices, data centers, and manufacturing facilities. deal which showcased AGC's capability as a true Solution Integrator

Benefits

With outsourced managed services, the client now benefits from consistency, uniformity, and services optimization across all its information technology disciplines and at all of its locations

TECHNOLOGY PRODUCT SOLUTIONS

TPS provides connectivity that enables businesses to better visualize and analyse information

- ✓ Strong brand awareness with 40+ years of history with sizable installed base
- ✓ We are a market leader in control room designs and deployments with reputation for being the best at complex signals and challenging environments

ORGANIZATION SIZED TO SCALE GROWTH

AGC Skills Across

Investment to hire sales resource continue

Talent Acquisition:

- + Ratio-centric manpower including sales, delivery and services team – capable and technically competent to achieve growth
- + Dedicated talent acquisition team focusing on high quality hires across functions globally
- + Focus on newer and future ready technology capabilities
- + Multi-skilled
- + Investment in refreshing the sales team and hiring of partner managers

Training & Development:

- + Building the organizational capability level with requisite training
- + Core & new skill up-gradation to enhance business prospects
- + Various Certifications by OEMs
