

Public Sector

Notification Solutions for Education and Government

SAFETY AND SECURITY IN TODAY'S WORLD Make faculty and staff's lives easier

In a post-pandemic world, technology matters now more than ever for public sector establishments.

Schools are searching for the right balance for safety and learning while governments need to provide innovative services that still deliver on service.

Budgets and integrations into complex technology environments are also a challenge. For the public sector, maximizing resources while keeping staff and faculty connected is top of mind. In the event of an emergency, support of an alarming and mass notification system that notifies all relevant parties is a security game-changer.

Safety First with Mitel Revolution

Keep staff and faculty informed during critical situations through a wide range of communication methods, including voice calls, email, SMS, chat, instant messaging, and beyond. Additionally, geofencing technology allows for location-based alerts, further enhancing safety measures. Mitel Revolution offers support for both IP and analog paging systems, accommodating the unique needs of a public sector location. With the ability to seamlessly scale up to tens of thousands of devices, this solution ensures comprehensive coverage throughout schools, campuses, government buildings front and back offices, and the devices of mobile staff, ensuring the utmost preparedness and security in emergency situations.

Packaged Video and Remote Door Entry

With government buildings and schools needing top security protocols particularly when public entry is not expected, MiVoice Business allows for remote door entry and security camera feeds right to the 6900-phone series.

SMS Messaging to Keep Everyone Informed

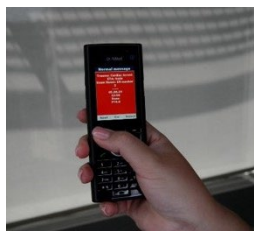

For schools, SMS offers the ability to extend messaging from teachers to students and parents for emergencies and non emergencies such as calendar events, daily updates such as homework assignments and other necessary communications.

*PEACE OF MIND FOR YOUR FACULTY & STAFF
TO FOCUS ON WHAT REALLY MATTERS*

Mitel Revolution

Mass Notifications for Critical Moments
